HERE'S the POINT!

By SPENCE HELD

An Ocean Beach woman appeared at a neighbor's front door last week with a piece of startling intelligence.

"The wife of one of our lifeguards here was beaten up by a man from the Peninsula News," she said. "It happened right in this block and there have been about six police cars around all day."

Yeah, only this traffic squabble happened in Mission Beach, where the lifeguard and his wife live, and the newspaper guy is employed on a downtown sheet.

Outside of that, the local woman had her facts fairly straight.

* * *

The other night I was reading at a rather late hour when suddenly the lights went out and the radio went silent. (Is that bad?)

Well, I looked outside and the street lights were off . . . I hunted around for candles and finally found one that was a Christmas present. It has two wicks—you know, so I can "burn the candle at both ends."

I set the thing up in an ash tray and tried to read by its light . . . Maybe Abe Lincoln did it, but I couldn't.

Anyhow, the lights came on again in about 40 minutes so I didn't have to give up and go to bed.

* * *

An overheard conversation:

Woman: "The first thing I do when I get up in the morning is take a sleeping pill."

Man: "What do you take when you go to bed at night—benzedrine?

Woman: "You don't understand. These sleeping pills are to relax me in the daytime."

Man: "Oh, I see. 'Happy' pills. Do they make you happy as a lark the whole day through?"

Woman: "If I felt any better I'd have to call an ambulance."

One of my spies informs me that Judge Everett N. Curtis, of Point Loma, gave a talk titled "Patented Oddities" at the February meeting of the S. D. Patent Law Ass'n.

An abrasive roller for removing whiskers, a rocking bathtub, and a gun for irrigating plants by shooting ice at their roots, were among the unusual patents encountered by Judge Curtis during his long career as a patent attorney.

In my opinion, what this country needs is a good five-cent cigar for a guy who has quit smoking.

(One way to quit smoking cigarettes is to chew cigars. But tobacco juice may be even worse than smoke on your innards.)

"Why don't you chew a pencil?" asked a sensible woman who never acquired the cigarette habit.

Hundreds Of Kids To Fly Kites At Ocean Beach

The Kite Festival is sponsored by O. B. Kiwanis Club and the City Park and Recreation Dep't. Cliff Peet of the Kiwanis Club is in charge of the parade.

Jack Dawson, recreation leader at the Community Center, said the children are taking their kites home with them this year. Some are getting broken during flying operations, he said. One boy reported, "My dog broke mine."

Many parents are assisting the younger children in making kites during evening hours at the Community Center.

Grihalva Stresses Importance Of Adult Education

In speaking before various groups and organizations Richard A. "Dick" Grihalva, incumbent San Diego Board of Education member who is seeking election for the four-year term, has stressed the importance of maintaining a comprehensive and strong adult educational program.

He claims the program now being carried on by the San Diego City School System is the finest in the U. S.

Today, over 20,000 adult students are attending the various classes. Grihalva says "These classes pay dividends to local aircraft plant workers and others through increased proficiency, which leads to better pay, greater opportunity for advancement, and a higher standard of living for their families.

"The adult educational program also enables many men and women to complete their interrupted educations and helps in teaching American principles to the foreign born."

COSTUMES—Pt. Loma churchwomen representing the various interdenominational missions to benefit by the World Day of Prayer will receive the offering in these authentic costumes. Left to right are Mrs. Ben Huntington of the Pt. Loma Community Presbyterian Church in an Oriental robe; Mrs. Walker Bennett II of St. Peter's by the Sea Lutheran Church in an Indian sari; Mrs. H. M. Quimby Proposes 'Broadening' Education Board

John Quimby, candidate for the Board of Education, said Monday night that he favors a revision of the system used for selecting board members "to eliminate the possibility of such lop-sided territorial representation as exists now."

Quimby made the statement in an address before a meeting of Painters and Decorators Local 333 at Craftsmen's Hall, 3909 Centre St.

He explained that he felt that the San Diego Board of Education should be composed of a cross section, representing all facets of the community's thinking, declaring:

"The present system of election calls for selection of board members at large, so that it is quite possible for the board to be made up of a concentration of members from one or from only a few sections of the school district.

"There is a need for broadening the board through use of some such system as that provided for election of the City Council—wherein candidates are nominated from a specific section of the city, and then elected by votes of the entire electorate."

Thyroid Hormone May Lift Logy Housewife

BY EDNA MILES

GETTING started in the early morning hours isn't always the fun it's made out to be in the movies and on television.

Presumably, any housewife leaps from her bed at 7 a.m. all aglow at the possibilities of getting breakfast in a hurry, getting the kids and her husband off to school and office, doing the dishes and cleaning up the bathroom.

More likely, what really happens is that she drags herself out of bed in a daze, tosses coffee and water into the percolator and prays that it doesn't come up mud. After an hour and a half of nightmarish activity, she collapses in the kitchen with a cup of coffee and thinks longingly about going back to bed.

She doesn't, of course. The coffee helps, and furthermore she has a load of laundry and other tasks to do.

If this is your customary early morning state, you may be one of many victims of a slight deficiency of thyroid hormone. Nothing serious but enough to make you feel tired in the morning. Enough to make it worth while to see your doctor. He can give you thyroid hormone to make up for the deficiency that makes you feel droopy in the morning and at your best in the evening.

Better see your physician if morning coffee holds as little interest for you as it does for this weary housewife.

But this is a condition that only your doctor can diagnose correctly. Dosing yourself is not the answer.

Off The Shelf Elegance

Amazing . . . and so gratifying . . . to know that a dessert of this elegance can be made, literally and entirely, from ingredients right off the kitchen shelf! A package of butterscotch instant pudding, a can of evaporated milk, instant coffee from a jar—all stored without benefit of refrigeration—combine quickly into a dessert of interesting flavor and rich creamy texture.

And, since making it calls only for shaking it, you can prepare this Toffee Pudding at a moment's notice for drop-in company; or plan to serve it to family or guests in a sophisticated manner, with an attractive topping of chocolate "curls".

Shake-A-Toffee Pudding

1 tall can (1⅔ cups) evaporated milk
½ cup water
1 tablespoon instant coffee
1 package butterscotch instant pudding mix
Toasted chopped almonds or shaved chocolate (optional)

Combine evaporated milk, instant coffee, and pudding mix in a shaker, quart jar, or other container with tight lid. Cover and shake briskly for 1 minute, or just until well mixed. Pour into serving dishes and let stand to set—about 5 minutes. Garnish with toasted chopped almonds, or shaved chocolate. Makes 5 or 6 servings.

If Ron Goerger, Los Angeles pitcher, can duplicate the stunt he pulled last year in high school, he'll set an all-time record. The husky Angel chucker pitched three no-hitters in a row during his senior year.

Backed By League Of Women Voters Treatment Center For Mental Illness

The League of Women Voters recently sent the following letter, signed by Mrs. Gilbert Curl, president, to the County Board of Supervisors:

During the past six months, the League of Women Voters of San Diego have conducted a study of some of the County Services, and have reached several conclusions upon which we plan to testify before the Board of Supervisors when occasion requires. We are also planning an educational program within the community on these issues. A summary of our conclusions, based on the information compiled by our committee and included in this folder, follows:

1. The League will support establishment of a 90-day treatment center for the mentally ill at San Diego County General Hospital, to be adequately financed and staffed. The program for the center should also include an out-patient clinic, a program for inter-agency psychiatric consultation, and a progrm for community education on mental health.

2. The League will support appropriations for the Welfare Department which will enable the agency to place more emphasis on rehabilitation of the Welfare recipients and which will help to reduce the high incidence of turnover of personnel.

The League recommends reclassification of Welfare Salaries to place these salaries on a par with those received by comparative positions in the Probation Department.

The League will also support appropriations for an in-service training program, and recommends inter-agency coordination on a level that will make possible the rehabilitation of problem families.

3. The League will support appropriations for the Probation Department to provide more adequate psychological and vocational rehabilitation of juveniles under the Department's jurisdiction.

Although we recognize that our recommendations entail a larger budget, we believe that adequate funds spent on staffing and providing rehabilitative services will ultimately relieve Welfare and Probation rolls of some of their chronic problems.

With respect to the in-patient treatment center, we are aware of the recent condemning of the present plant of the County Hospital, and the need for ultimate replacement. We urge that such a center be included in any plans for replacement.

S. D. Publishers To Attend CD Meeting Friday

San Diego County newspaper publishers will join other Southland publishers Friday, March 8 at an all-day meeting in the State Building, Los Angeles to discuss emergency operations of their publications after a nuclear bomb attack.

The session has been called at the request of the Federal Civil Defense Administration and the California Disaster Office. It is sponsored by the California Newspaper Publishers Association and the Los Angeles Publishers Association.

"A nuclear bomb attack would wreck some newspaper plants and cut off power and communications over wide areas," said Stanley Pierson, director of the California Disaster Office.

"Yet, next to food, shelter and medical attention, there probably is nothing the people would want as much as news. When it comes to allaying panic and getting a community reorganized, a steady flow of information and instructions is absolutely indispensable.

"We hope planned cooperation can be worked out to meet this need by continued publication of newspapers, come what may."

To assist the publishers' conference with information and suggestions, the FCDA will send three representatives from Battle Creek headquarters.

PL ASSEMBLY

"Can Women Make Money?" will be the subject of a talk by Mrs. Robley Baskerville at a meeting of the Point Loma Assembly, today (Thursday) at 1:30 p.m. in the clubhouse, 3035 Talbot St.

The speaker will be introduced by program chairman, Mrs. Earl F. Giebrson. Receiving at the door will be Mmes. Albert S. Freeman and Herbert Fifield.

Mrs. G. Campbell Janney will give the thought for the day. Mrs. George W. Gardner will lead the pledge of allegiance.

SENIOR CITIZENS

A two-day institute for senior citizens has been set for April 30 and May 1 in Balboa Park, Dr. Lucius Johnson, chairman, announced.

The April 30 sessions will be geared to the professional level while May 1 will be open to the public.

Goals of the conference are to focus the attention of the community on the older citizen group by discussing their needs; potential for community service; and to stimulate development of senior citizen resources for the benefit of the entire community.

The conference is sponsored by The Scott Foundation and the community Welfare Council, in cooperation with the City of San Diego, County, Board of Education, Council of Churches, CIO-AFL, San Diego State College, UCLA, University of California Extension, San Diego Chamber of Commerce and the Coordinating Council.

WOMEN'S GUILD

Group 2 of the Women's Guild of the Point Loma Community Church will have a luncheon meeting Monday, March 11, at 11:30 a.m. at the home of Mrs. Joseph Smith, 1001 Tarento Dr. Mrs. William Carrier is leader.

Don't Waste Water Campaign

How much water does Junior actually use when he brushes his teeth? And how much goes down the drain when Mom washes the dishes, or when Pop washes the family car?

These and other questions related to doing the run of water-using chores in the home are to be asked in a survey to be conducted by the Don't Waste Water Campaign during the week of March 10-16.

"There appears to be no authentic data regarding the actual number of gallons used in these chores or personal usages," according to Frank E. Smith, executive secretary of the Don't Waste Water Campaign.

In an attempt to find out, the DWWC is selecting 5,000 key homes in the county and asking the occupants to cooperate in the survey.

Three-fold purpose of the study, said Smith, is:

1—To achieve an educational effect in families which participate in the survey by checking water consumption in their own homes, thus creating an awareness of water in terms of gallons consumed.

2—To achieve an awareness of the need for water conservation in the 5,000 key homes (one out of every 50) in San Diego County.

3—To determine specific data on average number of gallons of water used in a selected number of usages.

The survey form will provide space for basic information, such as address, type of dwelling, number in the family, whether there is a garden or yard, number of bathrooms, patio, disposal, sprinkling system, and other water-using equipment and appliances.

Water usages to be covered will include showers, tub baths, laundry, dish washing, disposal, car washing, teeth brushing, shaving, hosing down of patios and driveways. Instructions will be kept simple, requiring only equipment normally found in the average home.

The over-all objective in the test will be to emphasie "normal usage."

The survey forms will be distributed by local subcommittees of the Don't Waste Water Campaign's Domestic Consumer Division.

Bible Comment:

Comfort We Get In Time of Trial Was Denied Christ

JESUS went into the Garden of Gethsemane to pray as He approached his impending fate. With Him He had taken James, Peter and John, the strong and impulsive disciples who were most capable of trust. He had told them to sit in the garden while He went further on to pray.

He told them of His great sorrow and of His impending death, and asked them to remain and watch with Him.

It was the human Christ, craving human sympathy and human companionship in the hour of His great trial. But there was that in His soul which no one could share. So He went forward a little and poured out an agonizing petition that the cup of suffering and final agony might pass from Him.

He came back to His disciples and found them asleep. He said to Peter, "What, could ye not watch with Me one hour?" He prayed a second time, returned to the three and again they were sleeping. In His deep loneliness, Christ returned once more to prayer and found that courage and confidence had come back to Him.

There was just a gentle reproach for his disciples now: "Arise, let us be going; behold, he is at hand that betrayeth Me."

Cannot hard-pressed souls take great comfort from this story? Often we reproach ourselves that our flesh is weak. We feel our weakness. We are conscious of our great cowardice in a trying period of life. We wonder that we have not the strength of will and the courage to enable us to triumph over every danger, to meet willingly every sacrifice.

But Christ Himself, with all the purity, beauty and strength of His earthly life, was so anguished that it was only through the thrice-repeated prayer that He was able to find the courage to meet His fate.

Idaho's Famed Vegetables

Abundant in our markets now are Idaho's Russet Potatoes, famous not only as "bakers" but also for their all-purpose qualities. With them are their gentle-mannered companions—Sweet Spanish Onions. Very large, creamy-white or yellow-skinned, their mild sweet flavor makes them perfect for using thin crisp slices in salads and sandwiches, and for making French Fried Onion Rings.

To Bake Idaho Potatoes

Size: Select potatoes of uniform size so that they bake in about the same length of time. Idahos for baking vary in size from large to very large. A good average size is 5 to 6 inches. Also use a size according to its place in the menu — a partner on the dinner plate or a meal in itself.

Preparation: Scrub potatoes so that the skins may be eaten. Like the skin crunchy-crisp? Leave as is. Prefer skin soft? Brush with oil or melted bacon drippings.

Baking: Place on shallow pan or rack in 425 degree F. (hot) oven, 40 to 60 minutes, depending on size. To test for doneness: using a paper towel or holder, squeeze the potato gently.

To serve: When soft, roll each potato in the folds of a towel. If the skin does not crack open, cut a small cross in top of each and press gently. Always serve at once, piping hot. Eat jacket and all. Dinner delayed? Scoop out centers of potatoes, prepare as for mashed potatoes. Return to the potato shell. Heat in moderate oven when ready to serve.

French Fried Onions, Idaho Style

Batter: Combine in sifter 1 cup sifted flour, ¼ teaspoon salt. Beat 1 egg until thick and lemon-colored. Add ¾ cup milk. Stir in sifted ingredients, beating until smooth. Because of their mild flavor, it is not necessary to soak them in milk.

Onions: Slice 3 large unpeeled Idaho Sweet Spanish Onions about ¼ inch thick. This makes for easier removal of skins. Peel slices. Separate into rings.

Frying: Dip a few onion rings at a time into the batter so that each ring is completely covered. Drop the batter-covered onion rings, a few at a time, into shortening or oil, about 3 inches deep in deep frying kettle or deep skillet and heated to 375 degrees F. Fry until golden brown. Lift out with a two-tined fork, drain on paper toweling. Sprinkle with salt. Serve hot. These fried rings may be kept hot by placing in a 325 degree F. (moderately slow) oven until all the onion rings are cooked, This should make about 5 servings.

The Passing Parade

You have seen big change and real progress if you can recall when electric cars were still in style. The 42nd National Automobile Show in New York gave a fascinating summary of developments in cars.

The first show was in 1900. That year, automobile production was 4,192. This included 939 gasoline vehicles, 1,681 steam carriages. There were 8,000 cars registered in the entire country — and 10 million bicycles.

In 1901, an increase in horsepower was reported. "A year ago," said one newspaper, "they advanced from 3 to 5; now, they frequently double these figures and even more powerful engines excite little remark."

In 1903, gasoline held the center of the stage. *Motor World* magazine called it the "rage, fashion, mode, craze of the day."

The first convertible appeared in 1904. Models had a removable canopy top and glass sides and end.

In 1907, for $400, you could get an Orient buckboard. It took $9,000 to drive off in the Electric Vehicle Company's Mark LXVI combination gasoline and electric job.

The show in 1924 was the first to consist entirely of gasoline-powered automobiles. Electric cars and the famous Stanley Steamer were absent.

Sometime later, when advertising copywriters waxed lyrical, and two-toned cars were introduced, colors were labeled: Marine, Ultramarine, Shoalwater, Colonial, Winchester, Harmsworth, Alsatian, Dagestan, Napoleon, Falmouth, St. James, Sea Fog, Dawn Mist, and Presidio. The year was 1927.

And here's a quick quiz: when were handbrakes moved to the left (to give more room in the front seat)? If you said 1935, you're right.

Charles (Red) Adams, going into his 15th year as a member of a Pacific Coast League team, boasts the most victories among active pitchers in the loop. He has notched 155 victories against 132 defeats. Teammate Marino Pieretti has won 142 and lost 112 contests. Chet Johnson, of San Diego has a 111-126 mark and Glenn Eliott of Sacramento, 101-108.

8,900,000 children, or 30% of public school students, ride to school in 135,000 buses, according to the National Automobile Club.

Peninsula Anglers Check In Limits Of Yellowtail

Yellowtail fishing at the Coronado Islands is rolling along at a pace calculated to wipe out most of the existing early season records long before the start of the $25,000 San Diego Yellowtail Derby March 30.

Although some fine catches had been made earlier, the big blowoff came last weekend, started by a catch of 634 yellows and 277 bonito on Saturday. Only seven boats were involved in the big catch, the remainder of the sportfishing fleet having been caught in the midst of preparations to launch the season at a later date.

Three of the boats cracked the 100 mark on yellows—Polaris with 166, Mascot III with 123, and Betty Lou with 112. Last year, it was not until June 4th that as many as 600 yellows were taken in a single day.

By all standards, the current season is running well ahead of last year and should be miles ahead by the time the derby opens.

Numerous limits of yellows were checked in the last weekend, two of them by anglers from the Point Loma-Ocean Beach sector. Those were Clark W. Johnson, Marlin Inn, and Leonard Cunningham.

At the same time, bottom fishing is continuing at the usual hot pace, and daily catches are made up mostly of limits.

Three Local Teams Reach Semi-Finals

Three Peninsula area boys' basketball teams in the Bay District competed in the semi-finals of the City Recreation Department's basketball league, according to Lou Howell, recreation director at Cabrillo playground.

Howell coordinates Bay District competition at the Point Loma High gym.

The three local teams which reached the semi-finals March 2 were the Skeptics Club of PLHS, in the A Division; and two Dana Junior High teams in C and D Divisions.

Members of the three teams will be honored, with others from throughout the city, at a dinner March 15 in the Elks' Club. Medals will be awarded to team members.

JEHOVAH'S WITNESSES

"Heeding God's warning, Armageddon will mean everlasting life; disregarding God's warning, everlasting death!" concluded Chas. W. Rieger of New York city at Del Mar, Sunday. Included in the audience of more than 2,168 Jehovah's Witnesses were Mr. and Mrs. Herman Deines of Ocean Beach.

Speaking on the subject: "What will Armageddon Mean for You?" Reiger quoted world leaders to show they expect Armageddon. But Bible prophecy and chronology show it will occur in this generation, he said.

Getting too far from the curb when parking no doubt is a mark of careless driving. Getting too close, points out the National Automobile Club, is almost as bad in this day of congestion. Such a practice prevents steering out of narrow quarters, and that is something to think about. Four inches leeway will help.

Red Cross Drive Under Way Here

Milt McGill of Ocean Beach, chairman of Section II, Suburban Business Division, for the 1957 Red Cross Campaign of San Diego County Chapter, has completed his organization and solicitation started March 1 in the various areas.

Area sub-chairmen include William Howell, Point Loma; K. W. Brown, Ocean Beach, and Vanferd Bechtel, Midway.

The campaign goal for the chapter is $575,731. The national goal is $95,000,000, an increase of $10,000,000 over last year because of heavy expenditures necessitated by many disasters, according to Gen. Alfred M. Gruenther, president of American Red Cross.

San Diego Chapter has the highest per capita service of any other chapter in the nation, largely because of the concentration of military here. However, the chapter receives $1.36 from the American National Red Cross for every dollar it collects during the campaign.

'BALANCE' ON TV

ON THE NEW '57 MAYTAG

there is no substitute for agitator washing!

SEE MAYTAG

and learn why!

Better than "tumble" washing because Maytag's Gyratator forces water *through* the clothes again and again, never just drags clothes through the water.
heart of the Maytag
Gets clothes cleaner because Maytag Gyratator sets up powerful water currents to flush suds through fabric and carry away every bit of grime and soil.
Easier on clothes because Maytag uses water action alone, as gently as your own two hands, to roll and flex every garment again and again until it is completely clean.
Maytag invented, perfected agitator washing . . . America's first choice. Come in and *see* why nearly 9 million Maytags have been sold! Far more than any other make.
